

Easy Peasy – All in One homeschool

A complete, free online Christian homeschool for your family and mine

Oceanography with Lab Materials List

Try to get the basic supplies. I mostly don't list these on the specific days they are needed. Get what you can of the rest. I try and make it as simple as possible in terms of needed supplies. I also included lots of videos of science experiments in case you aren't able to do them.

Day 14

aluminum foil
pennies
or a bunch of the same small coins

Day 19

stiff cardboard—cereal box, etc.
two pieces of paper
Exacto knife
or some cutting tool for cutting slits

Day 22 - I guess you could say this is optional

need to make sediment dessert
cookie crumbs
mini chocolate chips

Day 37

ruler
salt
one small potato

Day 45

One large clear glass jar (large enough to hold a plastic or paper cup)
Two paper cups
Soil (such as potting or topsoil)
Outdoor thermometer (small enough for the base to fit in the cup)
Spray bottle with water.

Day 48

Ice
blue food coloring—doesn't have to be blue
hot water
clear glass cup
bowl
a large clear straw

Day 58

11" x 14" white paper—doesn't have to be exact (you could tape to regular pieces of paper together to make them longer)

3 speed electrical fan

gooseneck lamp-or other light source

clock or watch

rectangular clear plastic storage box

water

metric ruler

Day 78

1 ketchup or soy sauce packet from a restaurant

or a Milky Way mini candy individually sealed

or a pen cap with a bit of clay,

1 or 2 liter clear plastic bottle

Day 109 - only if you can get it, if not, you can do it virtually

Sprig of [Elodea](#)

Water

Baking Soda

clear glass

Timer or Watch

60 watt light

Day 120 - if you can't, you can just look at the pictures.)

Crustacean – a shrimp, a crawfish or crayfish, a lobster

Day 121

ruler

index card

(you can print a ruler from online if needed and use a regular piece of paper instead of an index card)
