

## Test 6

1. Excretory System -
2. Ureter -
3. Urethra -
4. Kidneys -
5. Ammonia -
6. Dialysis machine -
7. Adrenaline -
8. Nephron -
9. What is the location, structure, and function of the kidneys?
10. What is the process of urine formation?
11. What are the components of normal/abnormal urine?
12. Reproductive System -
13. Male Anatomy -
14. Female Anatomy -
15. Pregnancy -
16. Embryo -
17. Zygote -
18. Gamete -
19. Embryo -
20. Fetus -
21. Blastocyst -
22. Cleavage -

23. Penis -
24. Testes -
25. Scrotum -
26. Epididymis -
27. Urethra -
28. Ovaries -
29. Fallopian Tubes -
30. Uterus -
31. Endometrium -
32. Cervix -
33. Vagina -
34. Placenta -
35. What is the pathway a sperm travels from the testis to the outside of the body?
36. How do hormones regulate the function of the reproductive organs?
